

**PROFILE:**

Urbanica Group is a multi disciplinary architecture, urban planning & interior design firm based in Miami Beach (USA), with interactive offices in Montevideo (South America) and Madrid (Europe).

Founded in 1997, the Firm has gained international commendation for its compromised evolutionary tendencies thru simplicity of means relative to form, function and environmental sustainability.

The firm's premise is to approach each project as an individual researchable entity, evaluating the specific site, historical and geographical realities and its potential to develop into a high quality aesthetic language, functionally efficient to contemporary principles.

Urbanica Group's dedication to high quality design is a paramount, whether working on low budget structures or high costs buildings with complex technical specifications. The firm is committed to understand client's needs, working with realistic budgets and timetables.

Urbanica Group believes in its responsibility for its work to contribute to worldwide environmental improvement and sustainability.

The firm professionals include architects, interior designers and construction administration managers with experience in all phases of design, planning and construction supervision, designing on multiple scales ranging from urban planning to residential projects worldwide.

Urbanica Group's areas of expertise include master planning and residential, arts and leisure, commercial and corporate, retail and exhibition halls, and hospitality projects.
